Subject: FW: Farm Discharge Complaint Alburgh -By Peter Murry

Can we ask the state what they're doing about this? Let's discuss.

Gary,

Thank you. It appears that Mr. Murray also has concerns about a municipal project. Appreciate your confirmation of this.

James

Pete,

Thank you for your note of concern. Sounds like you have every reason to be frustrated.

I have copied our Director, James Ehlers, to this note. He has experience with this manner of situation and will be able to help point you in the right direction.

Thanks again, Pete. We look forward to helping.

All the best,

Eric

Subject: Flooding

Hi Eric, as you know I live in Isle La Motte. I have talked to your office before in regards to the run off from the farm fields along west shore in Alburgh. Well here we go again. I'm contacting you not only to voice my concern but to make your office aware of this run off. I can not understand what the problem is with the state when it comes to this. There is farm fields for miles along this road with all of them with drainage ditches running right into the lake, several of these fields are corn fields which does create a tremendous mud line going way out into the lake. This can be seen for miles along this road not only during flooding but just about anytime it rains hard. Then to top this situation off the farm was allowed to tile all his fields with all of them coming to daylight and terminating in the ditch also. Wow! Then the town off Alburgh has contracted for a municipal main water line along this same road which isn't helping either.

So what would your advice be? I'm really frustrated with this, as I have watched it get developed into this situation for years with nothing being done for years!!!

So in closing I'm hoping you can advise me where to go next. Feel free to share this with whom ever.

Thanks

Peter Murray
